### ***Description***

*Iranian Journal of Economic Studies* is published twice a year in spring and fall by Shiraz University, one of the oldest and the most prestigious universities in Iran, with high quality in research and education. The aim of this journal is to provide a forum for economists (in Iran and around the globe) to publish their theoretical and empirical research in all fields of economics. The primary purpose of the journal is to promote publications of original research related to the Iranian economy. It is also designed to serve as an outlet for studies on the Middle East and Central Asia. Nonetheless, the journal does not preclude itself from publishing high-quality works related to other regions. At the same time, submissions of methodological or theoretical studies with practical results are also welcome.

### ***Submission***

Submission to this journal proceeds totally online and you will be guided stepwise through the creation and uploading of your files. All correspondences, including notification of the Editor's decision and requests for revision, take place by e-mail and hence remove the need for a paper trail.

### ***Submit your article***

Please submit your article via <http://ijes.shirazu.ac.ir>

### ***Submission declaration***

Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out, and that, if accepted, it will not be published elsewhere including electronically in the same form, in English or in any other language.
