Editorial Article

The "**Iranian Journal of Materials Forming (IJMF)**" has been in existence for thirteen years and is now in its fourteenth year, with the first issue of the 14th already published. This is an international open access journal in the fields of materials deformation and forming processes, which was established at Shiraz University in 2014. The journal welcomes submission from scientists and engineers in both academic and industrial sectors, covering all manufacturing processes. Additionally, the journal addresses various forms of material deformation, including elastic and plastic behaviors, as well as deformations caused by failure. The journal's quality and credibility are upheld by a distinguished editorial board, featuring some of the world's most renowned professors. Furthermore, the diverse group of referees selected for the journal underscores its scientific rigor. Here we are proud to announce that, for the seventh consecutive year, the journal has been successfully published quarterly, with the first issue of 2027 having been released. The strong attention and interest from researchers in IJMF enabled this issue to be published ahead of schedule, even before the start of 2027. We hope that by maintaining this momentum, the journal will continue to publish on time well into the future.

Editorial Board:

D. Banabic, Professor, CERTETA-Research Centre on Sheet Metal Forming Technology, Technical University of Cluj Napoca, Cluj Napoca, Romania

J. M. Cabrera Marrero, Professor, Department of Metallurgical Engineering, Universidad Politecnica de Catalunya, Barcelona, Spain

H. Daneshmanesh, Professor, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

K. Dehghani, Professor, Department of Materials and Metallurgical Engineering, Amirkabir University of Technology, Tehran, Iran

R. Ebrahimi, Professor, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

R. B. Figueiredo, Professor, Department of Metallurgical and Materials Engineering, Universidade Federal de Minas Gerais, Belo Horizonte, Brazil

P. Hodgson, Professor, Institute for Frontier Materials, Deakin University, Geelong, Australia

S. J. Hosseinipour, Professor, Department of Materials, Science and Engineering, Faculty of Materials and Industrial Engineering, Babol Noshirvani University of Technology, Babol, Iran

K. Janghorban, Professor, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

M. Kazeminezhad, Professor, Sharif University of Technology, Department of Materials Science and Engineering, Tehran, Iran

A. Kermanpur, Professor, Department of Materials Science and Engineering, Isfahan University of Technology, Isfahan, Iran

F. Khodabakhshi, Professor, School of Metallurgy and Materials Engineering, College of Engineering, University of Tehran, Tehran, Iran

T. G. Langdon, Professor, Departments of Aerospace & Mechanical Engineering and Materials Science, University of Southern California, Los Angeles, CA 90089-1453, USA and Materials Research Group, Faculty of Engineering and the Environment, University of Southampton, Southampton, UK

M. Liewald, Professor, Institute for Metal Forming Technology, University of Stuttgart, Stuttgart, Germany

Y. C. Lin, Professor, School of Mechanical and Electrical Engineering, Central South University, P. R. China

R. Mahmudi, Professor, School of Metallurgical and Materials Engineering, Faculty of Engineering, University of Tehran, Tehran, Iran

Y. W. Mai, Professor, Centre for Advanced Materials Technology (CAMT), School of Aerospace, Mechanical and Mechatronic Engineering, The University of Sydney, Sydney, New South Wales, Australia

H. Mirzadeh Soltanpour, Professor, School of Metallurgy and Materials Engineering, College of Engineering, University of Tehran, Tehran, Iran

H. Miyamoto, Professor, Department of Mechanical Engineering, Doshisha University, Japan

M. M. Moshksar, Professor, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

A. Najafizadeh, Professor, Department of Materials Science and Engineering, Isfahan University of Technology, Isfahan, Iran

M. H. Paydar, Professor, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

M. Reihanian, Professor, Department of Materials Science and Engineering, Faculty of Engineering, Shahid Chamran University of Ahvaz, Ahvaz, Iran

S. A. Sajjadi, Professor, Department of Materials Science and Engineering, Engineering Faculty, Ferdowsi University of Mashhad, Mashhad, Iran

J. A. Szpunar, Professor, Advanced Materials for Clean Energy, Department of Mechanical Engineering, University of Saskatchewan, Saskatoon, Canada

M. R. Toroghinejad, Professor, Department of Materials Science and Engineering, Isfahan University of Technology, Isfahan, Iran

N. Tsuji, Professor, Department of Materials Science and Engineering, Kyoto University, Kyoto 606-8501, Japan

S. M. Zebarjad, Professor, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

Reviewers for This Issue:

S. M. Arab, Department of Mechanical Engineering, University of Mohaghegh Ardabili, Ardabil, Iran

Y. Dadgar Asl, Department of Mechanical Engineering, Technical and Vocational University, Tehran, Iran

K. Dehghani, Department of Materials and Metallurgical Engineering, Amirkabir University of Technology, Tehran, Iran

M. Ebrahimi, Department of Mechanical Engineering, Faculty of Engineering, University of Maragheh, Maragheh, Iran

M. Emami, Department of Materials Science and Engineering, University of Bonab, Bonab, Iran

A. Hasanabadi, Mechanical Engineering Department, University of Birjand, Birjand, Iran

A. Heidarzadeh, Department of Materials Engineering, Azarbaijan Shahid Madani University, Tabriz, Iran

A. Kaviani, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

M. Khodadadi, Department of Manufacturing Engineering, Esfarayen University of Technology, Esfarayen, Iran

H. Khosravi, Department of Materials Engineering, Faculty of Engineering, University of Sistan and Baluchestan, Zahedan, Iran

A. Khosravifard, Department of Materials Engineering, Shiraz Branch, Islamic Azad University, Shiraz, Iran

A. Khosravifard, School of Mechanical Engineering, Shiraz University, Shiraz, Iran

N. Kordani, Department of Mechanical Engineering, University of Mazandaran, Babolsar, Iran

P. Mashhadi Keshtiban, Faculty of Mechanical Engineering, Urmia University of Technology, Urmia, Iran

S. Mosleh-Shirazi, Department of Materials Engineering, Shiraz University of Technology, Shiraz, Iran

M. H. Paydar, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

S. Pirsalami, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

M. R. Rezaei, School of Engineering, Damghan University, Damghan, Iran

M. Shahbaz, Department of Materials Science and Engineering, School of Engineering, Urmia University, Urmia, Iran

H. Talebi-Ghadikolaee, Faculty of Mechanical Engineering, University of Kashan, Kashan, Iran

S. Yaghoubi, Department of Mechanical Engineering, Faculty of Engineering, Ilam University, Ilam, Iran

S. M. Zebarjad, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran

Editor-in-Chief

R. Ebrahimi, Professor, Department of Materials Science and Engineering, School of Engineering, Shiraz University, Shiraz, Iran
